

# The Lomond Press

VOL. 1. NO. 40.

LOMOND, ALBERTA, FRIDAY, MAY 11, 1917.

\$1.00 PER YEAR.

## LOCAL ETS

The hot spell is simply pushing the wheat out of the ground. The large areas of fresh green augur well towards a bounteous harvest.

The C. P. R. is dumping several cars of cinders beside the freight switch, obviously to overcome the mud hole troubles experienced in previous years.

Wheat has taken another spurt up this week, yesterday's street price being \$2.41.

Leo Herman, M. Lafontaine and E. Bensen are sporting new chevrolet cars purchased at the Central Garage.

F. L. Harris, of Calgary, an old-time printer and editor, stopped over night in Lomond the forepart of the week.

Jas. B. Marshall left the latter part of last week for Manbyberries, where he will spend eight or ten days on business.

B. J Stein, the new jeweler of Enchant, was a business caller in Lomond on Thursday.

Geo. B. Craine has purchased a half section of land from W. W. Wambold, while Mr. Wambold has made a purchase of three quarter sections of raw land.

Ira Donily is having a large verandah erected on his residence.

Be careful and keep all your lose papers gathered up. Recently there have been several near run-aways, horses becoming frightened of wind strewn warpping papers.

Vulcan is to have a "big day". May the 24th., has been the day set for the occasion. The Lomond ball team will play its initial game on that day, when they will face the Vulcan ball team. It is predicted that the local team will carry off all honors, as there is some real fighting material in it. A big dance is also staged for the evening.

## Gordon Hanna Wounded

Gordon Hanna, a former Lomond boy and proprietor of the Central Garage, has been wounded on the firing line in France. He has been in an English hospital for about a month and expects to be back in the field again before long. In a letter to his brother here he states that the day he was wounded an aeroplane battle was in progress over the trenches where he was stationed in which fourteen machines were participating. A German machine was brought down practically undamaged within the British lines and a bunch of boys jumped out and tried to make way with the machine, Gordon among them, when the German artillery opened fire on them. Gordon says this was where he quit.

## Practically Dead During The Winter

### Curious Facts About Hibernating Animals

If you were to dig out of their burrows any of the millions of hedgehogs, dormice, marmots or woodchucks, or take out from the mud at the bottom of ponds any of the lizards, turtles or frogs, or take from the crevices of rocks any of the toads or snakes, or pick from the roofs of caves a bat or two, all of those would be found sound asleep, and no ordinary thing you could do would awaken it, for this is its long winter sleep.

This sleep is one of the great mysteries of nature. None of the scientists can explain it. They have been studying it lately, in different parts of the world, with more than usual attention, and they have discovered some new things about it. It has always been known that in the few weeks before the hibernating period is to begin, those animals which are to sleep through the winter begin to put on fat. "What is that?" you may ask. No one can answer why. By spring the fat is gone and the animal is clean and scrawny, so it is supposed the fat supplies energy to keep the heart beating, although the processes of feeding are suspended throughout the long sleep.

In the Ozark hills of Missouri is a huge cave wherein millions of bats

hibernate each winter. In the fall they come flying in clouds from all directions and they attach themselves to the rock roof and hang in great clusters until spring, when they go forth again to their summer haunts to feed and nest and multiply.

When the woodchuck crawls into his hole for his winter's sleep he stops breathing, but his heart beats on, feebly, and his blood circulates slowly. You may pull him out when he is thus hibernating and hold him under water for a long time and he will not drown, because he is not breathing and his lungs will not fill with water. His heart will beat right along. You may remove his brain and his entire spinal cord and his heart will beat for twelve hours.

But it is possible to freeze the warm-blooded, hibernating animal to death. If it gets too cold, the animal will begin to stir, and if it stays too cold for a long time he will die; but frogs have been known to have their blood frozen to ice and yet they lived. Mosquitos and spiders may be frozen so they are as brittle as snow-flakes and break to pieces if touched, and they revive with warm water. But each freezing and thawing their vitality lessens, and after a certain number of them they fail to revive.

## FAREWELL BANQUET GIVEN L. A. OSTRUM

L. A. Ostrum was the guest of honor at a banquet held in the Commercial Cafe on Wednesday evening. About thirty gentlemen were present. The several table courses were interspersed with toasts, speeches, anecdotes, etc., Wm. Hesketh ably performing the duties of toastmaster. These gave expression to the feeling of good will toward one of Lomond's pioneer merchants and to the regret on account of his removal from town. Round about two o'clock nuts were served and the company broke up.

Doughty's kitchen catered. The tables were profusely supplied from an elaborate menu and the cuisine was all that could be desired.

### Card of Thanks

The committee in charge of the Red Cross tea last Saturday announces a net revenue of \$40.50 from their effort. The committee desire to express thanks to all those who donated towards the table requirements and in any way assisted towards the success of the affair. Thanks and appreciation are particularly extended to Mrs. Crum, who so kindly loaned her restaurant and equipment to the committee for the serving of the tea.

## URGES CO-OPERATION IN TRAVERS MEETING

Mr. H. W. Wood, president of the U. F. A. gave an interesting address at Travers Sunday. His subject was "Developement of Civilization." He pointed out that there were two phrases of civilization to be considered, the individualistic and socalistic and gave some strong points on each, especially a strong plea for cooperation.

At the close of the meeting a hearty vote of thanks and praise was expressed to Mr. Wood by the goodly audience in attendance, for the stirring address given and wished that they might have the opportunity of hearing him again.

Rev. Armstrong closed the meeting with a short explanation and timely comment. Mr. Armstrong was instrumental in securing Mr. Wood to address us.

### Visit Lomond Elevators

Agent of line companies doing business in Lomond were favored with visits from superior officers during the week. Mr. Terry, of the Ogilvie Co., Mr. Fink, of the Alberta Pacific Co., Mr. Donily, of the Home Grain Co., Mr. Meyers, of the Terwilliger Co., Mr. Wrightson, of the Farmers Co-Operative Elevator Co., Mr. Stacy, of the Stacy Lumber Co., and Mr. Dosse, of the Pioneer Lumber Co.

## TRAVERS

Mr. Terry, of Medicine Hat, auditor representative for the Ogilvie Company, took supper with Mr. Geo. Elliot this evening.

A small baby girl of Mr. and Mrs. Gavitt died Friday night. It was apparently all right that evening on going to bed but upon awakening in the morning the parents found her dead. The doctor pronounced the cause of death heart failure. The funeral was held at the residence Sunday. Mrs. Lyons gave the funeral services owing to the absence of the minister. Interment was made in the Travers cemetery.

Roy Paulson is picking rock these days presumably to having more breaking done.

Jerry Rickets has leased and is fencing the west half of the school section 29 in order to have more pasture for his horses.

The Mr. Hastings have commenced the construction of a house for Mr. Vanholm. It will be a modern and commodious home when completed.

Miss Turner is back in the store again after a weeks absense because of injuries received when jumping from a rig when the horse became frightened at a hand car.

Mr. Todd Hunter, pitcher for the ball team, has arrived and the boys are giving him a try out during their spare time.

Budge Galliger is nearly a second Ty Cobb having run around the ball diamond in twenty seconds.

Jay Rickett and Oscar Olson motored to Carmangay Wednesday.

Mr. Geo. Elliott has traded for a Ford and now he thinks he has a "real car" and says it has four cylinders too. From this on he will not be found in the elevator much of his time.

The Ladies Aid met Wednesday with Mrs. Rounds. A large crowd numbering twenty-six was in attendance. The opening of the meeting was in charge of Mrs. Rounds with scripture reading and prayer. After the collection of the birthday offering and meeting closed a nice lunch was served in dainty May Baskets as appropriate to the first meeting in May. All enjoyed themselves immensely with the amount of work accomplished.

Mr. and Mrs. Greenfield and Mr. Allen Harris, of Retlaw, attended church Sunday night and Mr. Harris donated \$25 toward the new church at Travers.

Edd Lowe and Mr. Hodge, of Lomond school staff, were callers at Travers Tuesday evening.

Art Sweetman and wife visited with sister, Mrs. Paulson on Friday afternoon.

### PRES. WOOD GETS A GOOD RECEPTION

The reception accorded H. W. Wood, president of the provincial organization U. F. A. by the residents of Lomond and the farmers of this district was one that exemplified the esteem in which the speaker is held.

Mr. Woods impresses one as a man who thoroughly understands his topic before stepping on the platform to speak. On Saturday afternoon he spoke on the evolution of trade and commerce and the ultimate outcome of a system of business relations built on a competitive basis.

### STRAYED

About January last, 1916, from SW $\frac{1}{4}$ , Sec. 1, Twp., 14, Range 18 west, 4th., M. One black gelding, five years old, star on forehead, branded as cut on **U** left shoulder. Has old wire cut on **V** the left front fetlock, weight about 1500 lbs. \$50 reward for information leading to recovery of same.

Matt Maki, Enchant, Alberta.

WANTED—1000 bushels of potatoes, inquire of F. O. Cox, Lomond.

# BRIGHTEN UP

USE S. W. P.

A stock of various colors for spring painting. Floorlacs, Varnishes, Stains, Etc.

Long Distance Phone Office.

# The New Series CHEVROLET

THE New Chevrolet "Four-Ninety" is more wonderful than ever and has rightly been called "the product of experience." Built in Canada to give service under Canadian climatic and highway conditions, the Chevrolet "Four-Ninety" fills the demand for motorists who want an efficient car fully equipped—a car that is economical to buy and economical to run.

Specifications include valve-in-head motor; selective sliding gear transmission, three speeds forward and reverse; electric starting and lighting; heavy frame; strong springs and high clearance; oil indicator light equipment; heavy upholstering; mohair top; non-skid tires on the rear wheels.

The "Chevrolet" is the Car for Those who Appreciate Value for Their Money

### TURN YOUR FORD CAR INTO AN Automobile!

"DUPLEX" Cantilever Spring System for  
Ford Cars

Saves Car, Engine and Tires. Easy Riding—Eliminates jars and vibration. Makes a Ford ride like an automobile. Guaranteed to last the life of a car.

#### THE DUPLEX CANTILEVER SPRING SYSTEM

is the only design for FORD CARS fully embodying the "CANTILEVER IDEA" now recognized as the most efficient style of spring suspension. A COMPLETE DOUBLE SPRING SYSTEM, adding five inches to the span of present Ford springs. All springs and connections being in perfect alignment with each other, with no friction or sliding parts, allowing full and free action. COME AND SEE for YOURSELF.

LOMOND-VULCAN STAGE EVERY WEDNESDAY AND SATURDAY.

### AUTO LIVERY

Expert Repairing, Gas  
and Oils, Tires and  
Accessories.

## J. A. BOWERS

... Central Garage ...  
LOMOND, ALBERTA

## Car Of Wheat Nets \$4117.75

The A. P. Co. reports the sale of a car of wheat for J. D. Manner of 1530 bushels, grading No 1 Northern with 1% dockage, at \$2.91 $\frac{1}{4}$  gross in store at Moose Jaw. Four and a half months storage together with the freight took \$301.30, leaving the owner a net sum of \$4117.75 for his car of wheat.

## Pte. Clanfield Missing Since September 1915, But Now Officially Reported as Dead

The name of Pte. C. Clanfield appearing in April 30th casualty lists was the official clearing of the mystery surrounding the fate of the plucky chap, the youngest son of Mr. and Mrs. A. Clanfield of Lomond. Pte. Clanfield left Canada with the 81st battalion from Toronto April 25th, 1915; went to France on July 25th and participated in the Somme offensive. He joined a volunteer party to rescue some wounded men from the field of battle under heavy German artillery fire and the officer in charge of the party writes Pte. Clanfield's parent that the last seen of him he was assisting a German wounded man towards shelter. A large shell exploded and trace has been found of him since.

This is but one of the many heart-rending incidents of the present war. This lad was but seventeen years of age, yet was anxious and eager to shoulder his responsibility in the great conflict. Plucky and brave! He was an honor to his parents and to his country.

## Why Prices are So High

Some months ago when sugar started to take a rise in price, the demand was greater than usual and farmers, as well as some town folk, began to lay in sugar by the hundred pounds, I was advised to do the same thing, but on inquiring at the store I found one groceryman that would not price sugar in hundred pound lots, and he explained: "The more people that get scared and buy in quantity, the higher sugar will go until all have laid in their supplies; then the brisk demand falling off, sugar will go to normal prices again."

This set me to thinking, and it is true of any commodity. While prices are normal it is well to lay in supplies, but when there is a scarcity, the fewer people who buy, and the smaller the lot purchased, the greater the tendency to hold prices down to normal. Had you ever thought of it this way?

Tommy: "Please, mother, gimme another piece o' cake."

Tommy's Mother: "No Tommy, you must eat those crusts you have left at the side of your plate first; you might be glad of them some day."

Tommy: "That's what I'm keeping them for."

## PROVING HIS AGE BY THE USE OF X-RAY

The physicians connected with the juvenile court of Cincinnati was recently assigned the unusual task of determining the age of a lad by the use of the X-ray, according to the March Popular Magazine. Under the laws of Ohio, a boy 17 or younger comes under the jurisdiction of the juvenile court whereas one 18 or over would be tried, on a criminal charge, in the criminal court. The parents of the boy claimed he was 17, while the physicians were strongly of the opinion that he was 18 or older. To settle the question, X-ray photographs were taken of the bones of his arms and lower limbs. It is a fact, well recognized by the medical profession, that in the transition from childhood to maturity these bones undergo a change that is quite distinct. The photographs in this case showed a development of bony tissue as to prove conclusively that the boy was 19 years or over, and consequently his case was turned over to the criminal court.

The Red Cross tea on Saturday evening netted the committee some-like \$40.00 in gross receipts.

# Good Paint is The CHEAPEST

Goes farther and more easily applied. Martin Senour Paint, Guaranteed 100 per cent. pure lead and oil, will cover 400 square feet, two coats. A few dollars spent in painting your buildings will mean many dollars saved.

### Incapable of Being Shocked

The following from the Winnipeg Telegram illustrates the deadness to which our sensibilities have become since hostilities commenced:

This war, among other things, has completely benumbed the average man's susceptibility to emotion. How completely this is the case may be illustrated by a reference to last night's Telegram, the front page of which contained the following items of news:

The British government announces it will commandeer all the shipping.

Andrew Bonar Law, chancellor of the exchequer, states that Great Britain's national debt amounts to 3,854,000,000 pounds, less 964,000,000 pounds advanced to the Allies and the dominions.

Britain's expenditure last year amounted to 2,198,113,000 pounds.

Zeebrugge is bombarded by Allied aeroplanes.

Buy Your Gasolene  
and Kerosene  
from

W. A. Teskey  
Lomond

The United States government will send an army unit of 24,000 men to France at once.

The British admiralty is to be reorganized to meet the submarine menace.

Austrian-Hungarians Socialists demand peace without annexation or indemnities.

Estimated number of Germans killed in war, 1,300,000.

American steamship Rockingham sunk by submarine, thirteen men missing.

Flood destroys Kremenchug, Russian city of 60,000 inhabitants.

General Maude reports a British victory in Mesopotamia.

Wheat advances 33 cents a bushel in Winnipeg market.

Flour advances \$1.00 per barrel.

Seven strikes called among Winnipeg industrial workers; many labor unions present demands.

Day's casualty list containing twenty Winnipeggers' names.

These are merely the leading articles on a single page of one day's newspaper. They do not include any of the ordinary routine news. In normal times any single item of them would have been regarded as a newspaper sensation of the first magnitude. It is doubtful if yesterday all of them put together created a single thrill in the mind of the average reader of them. Our capacity for thrills has been well-nigh exhausted by the war. Our appetite for sensation has become jaded; our minds no longer react to the marvellous or the horrible. We are practically impervious to shock. How long, after the peace is restored, will it take us to get back to normal?

### Dairying in Alberta

In the past six years the number of dairy cows in Alberta has increased from 147,687 head, valued at \$7,953,847, to 215,033 head, valued at \$12,500,000. In the same time the output of creamery butter has increased from two and a half to eight and a half million pounds, and the output of cheese from 100,000 to 680,000 pounds.

### FOR SALE

Two young brood sows in pig. Apply at Wheat Centre Post Office.

Mother: "Ethel, that young man is too presumptuous. We shall have to sit on him."

Ethel: "Leave that to me, ma. I'll attend to it the next time he comes."

### TRAVERS

(CONTINUED FROM FIRST PAGE)

Mr. and Mrs. Peter Thiel, Miss Bausch and Miss Carpenter, of Midway, took dinner with Mrs. Wm. Galliger, enroute home from Champion.

Wheat was \$2.54 clear, Thursday highest price payed yet in Travers, this was price given by Ogilvie Elevator.

One thing much needed at the Cemetery is a fence as some have asked for this on different occasions so that they might set up head stones. It seems that those who should attend to this have not realized the fact. Also a plot and price list should be kept by some one near the cemetery as it is often inconvenient to go to Lomond to secure this necessary information, especially in cold weather.

## German Papers are Short Of News Print

The Berlin newspaper publishers have informed Chancellor von Bethmann-Hollweg that they are in pressing danger of being forced to suspend publication at the end of this week or the beginning of next on account of the paper shortage. They ask the chancellor to take steps to increase the supply and particularly to furnish fuel for paper factories. The situation was recently emphasized by the newspapers refusing to publish a speech before the reichstag by Vice-Chancellor Helfferich.

### For Bread Only

A decree is promulgated in the Official Journal prohibiting the use of maize, rye, barley or buckwheat flour for any other purpose than bread making.

### Many Patients Cared For

The latest returns of men on the strength of the military hospitals commission command in Canada shows a total of 5,952 on April 30. The total on April 15 was 5,677 having risen to the point from 2,404 at Christmas. The latest total is made up of 3,562 inpatients and 2,390 out-patients. Included in the total are 1,130 men who have not been overseas. At the convalescent homes are 2,220 overseas and 381 camp men; while the convalescent out-patients numbered 1,934 overseas and 447 camp men.

There are 631 patients in the sanatoria for tuberculosis with 8 out-patients, 414 of the total being overseas men and the remaining 225 camp men. The total of 5,952 is completed by 331 men in other institutions.

ARMADA

Mr. Woods, president of the U. F  
A., gave a very interesting address to  
the farmers at their meeting Saturday  
evening.

School has opened in the district  
again with Miss Calkins of Calgary in  
charge. We are expecting to notice  
many repairs both in the building and  
school grounds now, with our most in-  
fluential men on the school board and  
the weather good for digging post holes  
and putting in windows.

We were disappointed to learn that  
the auctioneer would not allow a Red  
Cross lunch to be served at Mr. Egles's  
sale on May 16th. The ladies had Mr.  
Egles's consent and had planned for  
the lunch. We do not know the  
reason.

Mrs. Charles Saunders of Okotoks,  
is visiting Mr. and Mrs. E. E. Saunders.

Mrs. George Crain entertained the  
school children on Thursday last in  
honor of Miss Doris' birthday.

Mrs. T. M. Wilson left for California  
last Monday.

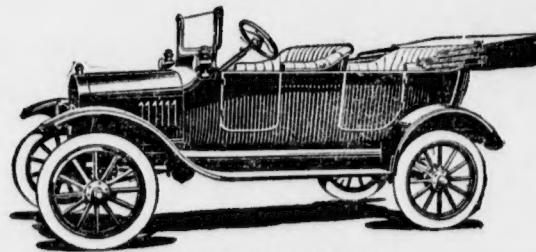

Mr. E. Reis has purchased a new car,  
and is now doing a rattling business.

Mr. O. P. Stewart had a serious run-  
away returning from church. Although  
his family was distributed over the  
prairie no one was permanently injured.

Any person finding a plaid mackinaw  
bearing a few new Ford stains kindly  
leave same at Armada store and re-  
ceive reward.

Sunday evening the youths and lassies  
arranged a motor party to Lomond to  
attend evening service.

Bring in your Job Work. It is time  
to let us give you our prices.
